

Individual Assessment

Any of these sound familiar?

I am burned out with my job

I need to better understand who I am and how I come off so that I can be more effective at work

I am aimless in my career

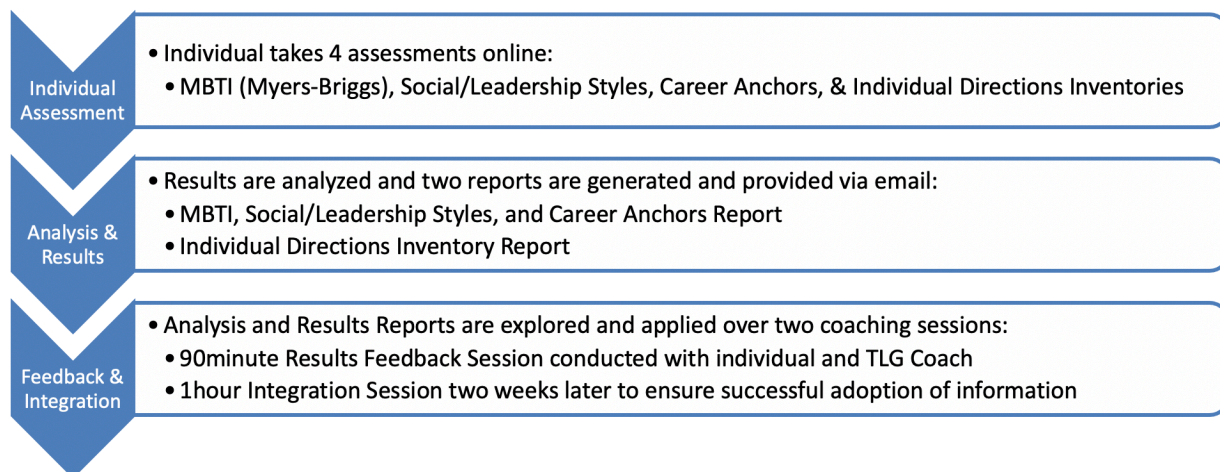

I am just good at what I do but I don't love it

Who I am and what I do at work are not aligned

I'd like to be promoted and want to understand the best path forward for me

The Lueck Group's **Individual Assessment** will help you identify and align with the best career direction for you.

We believe that growth and development begin with a fundamental understanding of who a person is, what their behavioral preferences are, what motivates them, and how to harness their strengths. Our individual assessment approach leverages the power of four assessments, expert analysis, and integration into career goals to help individuals apply learnings.

"The individual assessment that The Lueck Group facilitated was really eye-opening for me. It helped me to get some perspective on how it is I gain satisfaction and energy from my professional and personal environments as well as those things that create the opposite experience for me. Jessica and Greg helped me to interpret my scores in a way that I can apply to a variety of situations."
